## Lost

Lost my gloves yesterday. ... Hard luck ... eh.

Had lunch downtown ... took off my coat ... then gloves ... but ... by mistake ... put them in the wrong pocket.

Tried to go back and get 'em out. ... Positively couldn't do it. ... Waiter kept glaring ... thought I wanted to pick the other fellow's pocket. ... Gave it up. ...

Stranger put on his coat ... walked out ... with ... my ... gloves.

Had to go over to the FASHION-CRAFT SHOP and buy another pair.

Never mind ... got a ripping pair ... lined ones. ... Hope the other fellow likes my old ones as well. ...

... Taa ... Good mornin'.

## IMMIGRATION QUESTION AT LIT. TO-NIGHT

Arts '19 and Law '22 Debate At 8.15.

ENTHUSIASM SHOWN.

Annual R.V.C. Debate To Be Held This Friday Evening.

The weekly meeting of the Lit. is being held this evening in Strathearn Hall at 8.15, when a debate is to take place between Arts '20 and Law '22, on the subject: "Resolved that the Dominion of Canada should exclude the immigration into the Dominion of all non English speaking peoples." This question is one of great importance to all Canadians at the present time, and one upon which every Canadian student should be well informed. The war has taught that nations are not to be accounted great because of their material prosperity and power, but rather that the source of a nation's greatness lies in the character of her people. This has brought the question of immigration forcibly before the people of Canada and many people now regard the assimilation of certain types of Europeans as a menace to the development of proper Canadian nationalities. It is being argued further that our future should rest in the hands of the Anglo-Saxon peoples alone, and that all the continental races should be refused admission to this country. On the other hand we have to consider the material development of our natural resources, and the labor necessary to produce this wealth, as well as the highly desirable elements which Europe has to give to the building up of a new country.

The recent strikes throughout Canada have also impressed us with the dangers which European immigration hold for our industrial life. Most of our unrest, it seems, is due to foreign agitators trying to avenge an old world grievance in a new world society. This, and other things, makes the question of immigration one of striking importance to Canadians at the present time. If you want to hear both sides of the subject and to talk over its pros and cons, come out to the Lit. to-night.

On Friday night the annual debate between the Delta Sigma Society and the Lit. is to be held in the Union. This event has always been a great success in year past and it is not expected that this year will prove an exception to the rule. The subject to be debated is as follows: "Resolved that it would be to the advantage of the Canadian people if the farmers party should gain control of the Dominion Government." An interesting debate is assured, and all are advised to keep this evening open.

## CHANCE FOR CARTOONISTS TO DO WORK

"Daily" Inaugurates Weekly Cartoon Competition.

"GET BUSY, ARTISTS."

Drawings Must Be In By Thursday Night.

Can you draw entertaining cartoons? If so, enter the competition to be held weekly by the "Daily," starting this week.

All you need to do is to make a sketch or cartoon in India ink, pertaining to college affairs, and send it to the "Daily" office sometime before 10.00 p.m. on Thursday.

Your sketches do not have to be either elaborate or extraordinary, but they should have some originality and should be of interest to all. They may be either humorous or descriptive.

Each week, a splendid prize will be awarded for the best drawing received, and the prize-winner's production will appear in Saturday's issue. Cartoons have never before appeared in the "Daily," and it is hoped that in future they will become a popular feature.

All students of all faculties (R.V.C. included) are eligible to compete, and some of the hidden talent in college is expected to be brought to light by the contest.

Indian ink must be used, and the drawing must be done on ordinary-sized paper.

The subject matter is very plentiful, and easily picked up around the Campus. It is sincerely hoped that the competition will obtain the support that it should have every week, and that anyone who is at all talented in this line, will enter.

## WHAT'S ON

2.00 p.m.—News Board meeting.  
5.00 p.m.—Canadian Club Address for McGill and R.V.C.

Dec. 3rd, 1.00 p.m.—Arts '20 Class photo, at Notman's.  
Dec. 3rd—Debate: Arts '20 vs. Law '22.  
Dec. 5th—High School Dance.  
Dec. 5th—Delta Sigma vs. "L.T."  
Dec. 9th—Old Scouts Smoker, at Union.

## FENCING CLUB HOLDS FIRST REAL WORKOUT

Mr. John Long Is Instructor Of Club.

At 5.30 sharp yesterday afternoon McGill's fencers and would be fencers met in the Union for their first practice of the season, under the able instruction of Mr. John Long. About twenty fellows turned up for the practice, a greater number than had been at either of the two previous business meetings.

No time was wasted in getting down to work, of which Mr. Long promised enough to make them sore for the rest of the week. To begin with he pointed out and named the different parts of the foil—the foot, centre and feeble parts of the blade, the guard and the grip, with its concave and convex curves. With this information fixed in the minds of the beginners he discarded the foil and proceeded to explain the first position taken in fencing, that of standing with the feet at right angles—arms on hips and head facing over the right shoulder at the opponent (in this case imaginary). After practising this position till they were able to get something like a right angle without looking at their feet, the fellows were given the "knee bend" with the trunk erect. Many found this difficult but after repetition it became more natural and easy. This was followed by the position of "on guard" (without foils), that was the first position, knees bend, and the right foot advanced twice and a half its own length at right angles from the left foot. This proved to the beginners a very trying position and was made more especially so when Mr. Long made them hold the position, with both knees bent to the limit, while he explained at length some detail or criticized the various attitudes of the fellows. After getting the fellows familiar with this position and having them run through the three several times they were given the advance and retire. When the fencers showed indications of a little speed in going through the above exercises Mr. Long turned from them and substituted the sitting-up floor exercises. Walking them rapidly around the room with stops, starts and reverses, familiar to the footballers, and alternating with the floor exercises of raising and lowering the legs, sitting up and touching the instep, raising and lowering on the arms, raising and lowering the arms and legs from the stomach position and finally, heels raise, knees bend and a last two minutes walk, Mr. Long succeeded in exhausting the healthiest athlete present. To enable the fellows to overcome the resultant stiffness before Friday, Mr. Long has offered to give an extra half hour on Wednesday. Further notification of this meeting will be given. If the practice is held it means that the fencers will have become familiar with the primary positions and will be able to get onto the foil.

From the numerous turnout and the willingness with which the fellows went through the hardest exercise they have probably had for some time, it certainly looks as if McGill could develop a very capable team for the Assault-at-Arms in February.

Fencers are advised to be punctual and regular in attendance, as Mr. Long promises new material for each practice.

Remember—those of you who can draw, have your entries in before Thursday night of each week, and make a bid for the valuable prize offered by the "Daily."

## SWIMMERS ARE CONFIDENT OF CHAMPIONSHIP

All Water Pushers Are Expected Out At Practices.

MEET IN JANUARY.

Members Doing Well—New Men Still Wanted.

The McGill Swimming Club has been more or less "up against it" this year, but has, nevertheless, contrived to do a great deal of work up to the present time. The autumn term is mostly devoted to water polo, the swimming meet being held during the winter session. This year the polo team has managed to win two games but have been unable to beat either the M.A.A.A. or M.S.C. This is probably mostly due to lack of practice. (The hours of practice are from 5.30 to 6.00, on Tuesdays and Thursdays, but during this time the swimming tank is crowded and the only practice the team gets is that of shooting at the goals. Team-work cannot be obtained in this manner, and the result is that for years McGill has not had a winning team. Nothing can probably be done until the University owns a swimming tank of their own, and that will probably not be for some time to come.

The executive had hoped to enter a senior team this year in the Canadian Amateur Aquatic Polo League, but, owing to Fisk being unable to play, the matter had to be left over. If McGill send down an Intercollegiate team, there should be little doubt of our winning the polo game, as Fisk and Parsons are both good players and have played on M.A.A.A. senior teams.

Last month a Freshman-Sophomore swimming meet was held, in order to get some idea of the material in the Freshman year. As they captured almost every point and out-swam the Sophomores with comparative ease, among whom was Harold Fisk, it looks as if the Intercollegiate swimming team will be very fast.

Parsons, of First Year Science, comes very close to the Canadian record for the 50 yards breast stroke. He was beaten by Blinn, also of First Year, in a hard-fought race. In the back stroke race we must depend on Harold Fisk, who put up a very good fight for the Canadian championship at the National Baths a few weeks ago.

In the 50 yards, free style, probably Bob Winter and Harold Fisk will be hard to beat, though there are one or two other men in the college who are rumored to be very fast, but who have not turned out to practice.

For the 220 yards, as far as the club knows at present, Fisk and Sherrard are about the best men. At fancy diving (Continued on Page Two.)

## MEETING OF CHESS CLUB LAST NIGHT

Pleasant Evening Passed By Players In Union.

PROFS. ARE WINNERS.

Club In Strong Popularity—Meet Again Monday Next.

At an enthusiastic gathering of thirty-seven members, the Faculty proved their superiority over the students, by winning five out of seven sets. The Chess Club is rapidly coming to the fore in college activities, as was shown by the increase in attendance, with promise of several new chess players turning up at the next meeting, which will be held next Monday night, at the Union, at 7.30 o'clock.

A request has been sent to the chairman of the House Committee to procure more sets to comply with the needs of the club. For the present, members are requested to bring their own sets. Among those present were, Dr. Davies, Dr. Eve, Prof. Smith, Prof. Davin, Dr. Eddy, Dr. Mass, Mr. Grieve. Other members of the Faculty who are interested in the game are cordially invited to attend.

It is hoped that at the next meeting the graduates also will turn up and furnish some interesting games. Further notice will appear in the "Daily," and a list will be posted in the Union of the opponents for next Monday night.

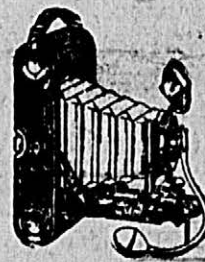

The Maintenance of Their Exceptional Quality is the Reason of Their Wonderful Popularity

## In Our Misdre

As a very logical result of the war McGill is to a greater extent than ever before a cosmopolitan university. The illustrious part which her sons played in the great European struggle earned for our Alma Mater the esteem and admiration of the world regardless of national bounds.

This increased prestige, if so it may be termed, is already exemplifying itself in unmistakable form. The number of foreign students within the gates of McGill this year is considerably greater than it has ever before been. There has been a very marked influx in this respect, and this before the clouds of warfare have actually cleared away. That this is but an indication of the trend which is to characterize the future we have no doubt. The world has a new conception of Canada and one which is entirely contrary to that of pre-war days. Canada is not, as was very generally supposed, a wilderness, a province in the primeval sense of the term, but a nation which has been tested and not found wanting—a country which has proven itself in all respects worthy of recognition as a nation.

The fact, therefore, that McGill is to a greater extent than ever before a cosmopolitan university, that she has to-day within her gates a body of foreign students far outnumbering that of past years, is in the nature of things a fact worthy of consideration. Does this influx of the foreign element call for any particular provision academically or socially? We are not prepared to answer affirmatively nor are we in a position to reply in the negative. The point to emphasize is that the present situation is one which should be considered with a view to the best interests of the University as well as to those of such foreign students.

Already there is a movement on foot to effect the organization of this foreign element. Such a step is but natural and in many ways it is commendable but at the same time we must not lose sight of the fact that these students should and must be assimilated. Anything in the nature of segregation on the part of these men must be to the decided disadvantage, not only of such students, but to the University at large, which as a university must essentially be capable of assimilating men of all tongues and all grades and categories of thought.

## SWIMMERS ARE CONFIDENT OF CHAMPIONSHIP

(Continued From Page 1)

Ing. "Curley" Walters is probably the best known, but either Laidley or Brouse can run him pretty close in points. It is hoped that all the men who have ever done any swimming will turn out on Tuesdays and Thursdays and get into condition, so that their "times" may be taken for their particular distances. In this way only can the executive get an idea as to the quality and quantity of the material at their disposal. Most of the men mentioned here are Montreal men, and are only mentioned because their past performances are known. There must be all kinds of men at college from other parts of the world who have taken part in swimming meets. It is hoped that all these men will hand in their names to G. Gavin Miller c/o Union, so that a really representative swimming team may be got together. It may mean a trip to Toronto and a block M. The club cannot carry on satisfactorily unless it has support, and it is up to the swimmers to get out and assist the club as far as possible.

For January a swimming meet will be held, and besides the ordinary events it is hoped to have an open event in which several Canadian champions will swim. There will be an intercollegiate relay race. Last year the Faculty of Medicine did not enter a team, not having four fast swimmers.

It is hoped the Meds will remedy this year.

The future looks bright, for there are certainly some very fast swimmers in college this year. The men who are turning out are very enthusiastic and full of "pep," and are fairly confident of their ability to beat Varsity or Queen's. Let us hope the opportunity is not lacking.

## A BANK WITH A RECORD.

Few institutions in our country can look back on an unbroken record of over sixty years of corporate existence—and the Molsons Bank, which was incorporated in 1855, has claim to distinction in this respect.

But its record shows that age has not dulled its efforts.

Indeed, the statement shows that profits for the year established a new record, and had justified an increase in the dividend—which is now fixed at 12 per cent. instead of 11 per cent. in recent years.

Deposits jumped to over sixty-three millions—twelve millions increase over previous showing, and a very satisfactory proportion of liquid assets to total liabilities is shown.

The management of the Molsons Bank may accept with the conscience of having well earned it, the vote of thanks which the shareholders passed, and the general public will welcome the good showing made, as it reflects the satisfactory condition of business in Canada.

## REMAINING GAME IMPORTANT ONE

Freshettes Forging Ahead With One Match To Play.

On Wednesday at 4.50 o'clock the Juniors and Freshman teams will meet in what promises to be a closely contested match. If the Freshman win one game (having already won two games) they will have carried off the Basketball Championship: If the Juniors are victors they will then again meet the Seniors (who are bye) on Dec. 10th to play off a tie.

As it stands the schedule is as follows:

I.—November 19.

Seniors beat Juniors by 15 to 12.

Freshmen beat Sophs by 19 to 17.

II.—November 26.

Freshmen beat Seniors by 27 to 24.

Juniors beat Sophs by 21 to 16.

III.—December 3.

Juniors vs. Freshmen.

**BASKETBALL FOR 2ND TEAMS.**

On Wednesday at 2.15 o'clock the first matches will be played between the Second teams of the 3rd, 2nd and 1st Years, A, B, C and D, when A will play C and B vs D.

All Second, as well as first teams, must be posted by Thursday at 4 p.m., without fail.

## AT THE THEATRES

### THE IMPERIAL.

Decidedly Oriental with an original though somewhat weird plot, and real Japanese actors, "The Dragon Painters" is a change from the usual run of feature films shown at the Imperial. Sessue Hayakawa is Tatsu the "Dragon Painter." Tatsu Aoki plays the part of Ume Ke the "Dragon Princess," and Edward Pell, as Kano Indara, the last of a great succession of painters. The scene is set in the Hanake Mountains, in Japan. Tatsu, a son of the hills, receives the gift of painting from the gods, and develops into a genius. His paintings are of an unusual kind, and attract the attention of Kano Indara, who is looking for a successor worthy of the name Kano. He immediately sends an emissary in search of Tatsu, who is found among the hills, where he is known as a painter of strange pictures. Upon arriving at the home of Kano, he meets Tatsu Aoki, daughter of Kano, and in her he beholds the "Dragon Princess" of his dreams, and immediately claims her as his own. However, a month's probation is exacted by Kano before he will give him the hand of his daughter Ume. At the end of the month, and clothed in the gown of a Japanese artist, he appears again at the home of Kano, and is accepted as his son. A month of honeymoon happiness follows, at the end of which, Tatsu finds the gift of the gods has left him. Everyone is in despair, and Ume solves the problem by leaving her husband with a pretence of committing suicide, in the cause of regaining his lost art. Tatsu, in despair, also attempts suicide, but is rescued by Kano, and upon recovery finds that the gift has returned. Shortly afterwards Ume returns also, and happiness reigns once more.

To-morrow will be the last day's showing of this picture, the feature film for the balance of the week will be "The Dark Stars," from the novel by E. W. Chambers, with Marion Davies filling the leading role. The picture of Bird City at Johnston Lake, Sask., is instructive besides being entertaining, showing pelicans, cormorant chicks, terns or sea gulls, and many other species of birds. Harry Semon in a comedy entitled "Dew Drop Inn" is very funny. The British Official News Gazette, featuring the Kenwood Park Races, as well as other news items, is up to date. Kinograms and Timely Topics are as acceptable as ever. The orchestral concert is very good, especially the operatic singing in Aria from the opera Aida. The Butterfly, rendered by the orchestra, deserves special comment, and was well applauded, last evening.

### THE PRINCESS.

This week the programme given at the Princess is truly made up of heart liners. From start to finish there is not a dull moment.

The programme opens with Briffet Canadian Films, featuring the Prince of Wales in New York, and later showing his departure from Halifax. Homer Romaine, an artistic aerial thriller gives a unique performance on ropes and swings. His many stunts were followed with great interest by a crowded house.

Conley and Webb then delighted the audience in "Odd Musical Nonsense." Their songs and jokes were much appreciated. This act has been styled the funniest act in vaudeville, and one would go far to find its equal.

An act of a different kind was given by the A. & A. Producing Co., called "The Ragged Edge." Its rhyme was good and brought forth great applause.

Skeleton Brooks gave a number of delightful songs of his own composition, and he had a good assistant in Horace George, the Jazz Comedist.

No one should miss seeing "For Pitty's Sake," which is a travesty on the old-time melodrama. This act alone is well worth spending an evening to see.

There is not a dull moment during its performance, and the many antics of Cy Spiveens were watched with great

## R.V.C. '20 AND '21 HOLD MEETING

Representatives From Each Year Appointed To Take Part In "Rigmorole."

A meeting of R.V.C. '20 was held yesterday, with the president, Miss N. Macnaughton, in the chair. Miss H. Nichol, Miss G. Moody, Miss G. Ewing and Miss H. Davidson were elected to represent the class in the Delta Sigma Rigmorole on Wednesday next. The class debaters elected to represent the Seniors in the Senior-Junior debate on December 17th were: Miss G. Ewing and Miss M. D. Mawdaley. Miss J. Reid was then appointed convenor for the Refreshment Committee in connection with the Swimming party on Saturday next. The meeting then adjourned.

### CLASS MEETING R.V.C. '21.

A class meeting was held in the Latin Room on Monday, December 1st, for the purpose of electing four representatives to take part in the Delta Sigma "Rigmorole" on Wednesday, Miss Godwin, Miss Hackett, Miss Houl-land and Miss Mathewson were elected. Miss Barnes then urged the girls to have their pictures taken for the Annual as soon as possible, and announced that the forms for biographies might be obtained from the R.V.C. Porter. As there was no further business to come before the class, the meeting then adjourned.

### gic.

Allen Rogers, assisted by Mr. Henry Dexter, gave fifteen minutes of concert. His songs were well chosen and were received with delight. It is to be hoped that he will be in Montreal again before long.

An act of a different sort was given by Buster Santos and Jacques Hays—The Girls with the Funny Figures. Their jokes were quite original and their performance well given.

The closing feature of the show was given by the "Three Kitaro Brothers," the Novelties Risy Artists. Their act was a splendid exhibition of skill. The wonderful way in which one balanced and tossed the other, just as if he was a ball, was marvellous. It may be characterized as one of the best features of the sort given at the Princess for a long time.

The show at the Princess is well worth a visit this week, especially if you want to chase away the blues.

### THE ORPHEUM.

Among the many comedies which the American and Canadian stages have seen during the past fifteen years, "Pais First," from the facile pen of Lee Wilson Dodd, is easily among the very successful ones. It is a comedy which warms the heart, for it is absolutely natural, and the story told is one which nobody can watch without feeling interested in the fortunes of the various characters concerned.

The two pals are an escaped convict and ne'er-do-well who come together under strange circumstances, and whose close affection and loyalty form the basis of the entire play. They come across a fine old country house near Nashville, and here an old negro servant mistakes one of the heroes for his young master, and Danny, the mistaken young man, attempts to live up to the situation.

It can easily be imagined that the circumstances created by this situation are such as lead to all sorts of amusing contortions, and the manner in which the puzzle is straightened out and the story disentangled forms the ground work for an entertaining and as amusing a comedy as the stage has witnessed for many a long year.

William G. Naughton, the new leading man, plays the part of Danny, one of the pals. He is ably supported by Caryl Gillen as the Dominie, the other pal. The leading lady, Miss Margaret Knight, is, as usual, very good.

Perhaps the strongest character was the Dominie. The whole show, however, is a harmonious unit, each part fitting in the play and bringing out the characteristics of some other actor.

The musical programme is of the usual high order. Altogether, the show this week is well worth seeing.

### GAYETY.

This week's show at the Gayety is of the usual excellent type provided by that management. The "Victory Bells" present a musical comedy entitled "Frolloques a la Mode." The prima donna, Miss Texas, assisted by an able company of pretty girls, sang many popular songs, which were received with hearty applause by the audience.

Special mention must be made of the comedians and also of Miss Brown, who deserves great credit for her excellent dancing.

The comedy is in two acts. Eddy Dale is represented as mixing up a cocktail, through which the girls are first presented to the audience in a novel way.

As a special feature, Mlle. Davenport presents her "Posing Models," in which she offers a very good opportunity for one to appreciate art in that direction. It is evident that great care has been taken in the selection of costumes, of which a great variety are worn. Also the numerous coloring schemes are beyond description and add greatly to the excellence of the performance.

### LOEW'S.

The entertainment presented at Loew's this week is both interesting

## FACULTY NOMINEES TO THE STUDENTS' COUNCIL

The nominations for representatives for the Students Council closed last night. It is very gratifying to see that such an interest is being taken in the selection of officers. Every Faculty has at least two nominations and Law has three, so there is promise of a very hot election.

He, the undersigned, beg to nominate Mr. J. L. Fortin as Faculty representative for the Faculty of Appli

ed Science, 920-21.	J. Haman.	J. G. Gardner.
J. B. Macphail.	F. Cunningham.	E. Maxwell.
E. Clarke.	J. Lay.	R. Mooney.
Eastman Root.	J. Lewis.	G. O'Harrigan.
R. Gauthier.	C. Watson.	A. L. Farnsworth.
G. Elliot.	W. Thompson.	L. Perrault.
A. Robertson.	J. H. Dawes.	D. Perriton.
J. Ferguson.	R. Farmer.	B. Jenks.
W. Muir.	L. McCurdy.	

We, the undersigned, hereby nominate Mr. A. Murray Robertson, Sci. '21, as Science representative to the Students Council.

R. Robertson.	M. Powell.	E. Cope.
R. Eadie.	H. Macklin.	G. H. Cartwright.
M. Cote.	L. Hart.	Jas. Wilson.
E. Wilson.	E. MacEwen.	E. Penny.
P. Seath.	K. Winslow.	J. Wickenden.
W. McLean.	A. Chisholm.	H. Mahaffey.
D. McPhail.	C. Parker.	J. Betournay.
J. Weekenden.	W. Eadie.	G. Kirkby.
P. Davies.		

The undersigned hereby nominate Mr. L. W. Kern, Arts 1121, for the representative of the Arts Undergraduates to the Students Council, 1920-21.

E. C. Common.	C. Townshend.	K. Falcómer.
J. C. Farthing, Jr.	E. Graves.	Geo. Bullock.
J. G. Pierce.	G. McCall.	A. Lester.
A. W. Barrett.	T. Petterson.	H. O'Hagan.
R. Smith.	E. Martin.	G. Puddicombe.
R. Taylor.	C. Smith.	S. Murray.
W. Pratt.	S. Taylor.	A. Stanway.
H. Rowat.	L. Reford.	F. Walters.
H. Borden.		

We, the undersigned, wish to nominate R. S. O'Meara as Arts representative to the Students Council.

G. H. Burland.	E. Cockburn.	E. D. Smith.
W. Antliff.	G. Jones.	G. Dustin.
A. Badin.	P. Drummond.	B. Glickman.
M. Gabourg.	E. Lafoley.	P. A. Masson.
M. Levett.	G. Carruthers.	Wm. MacKisler.
D. Anderson.	G. Benson.	J. Blackman.
G. Shaw.	G. Finley.	W. Shapira.
A. Lains.	G. Hamilton.	M. Wallace.
F. MacDonald.		

The undersigned students of the Faculty of Law nominate Mr. Clarence McCaffrey, Law '21, as their representative to the Students Council, 1920-21.

F. D. Genest.	G. Philbrick.	G. Young.
M. Sigler.	G. Pender.	H. Hagen.
E. Harris.	A. Murphy.	C. Nolan.
J. Robertson.	L. Lorange.	P. Meyerovitch.
C. Hibbard.	W. May.	G. Yantes.
B. Walker.	G. Sherman.	Gaston de Lisle.
A. Chevalier.	K. Crowell.	H. Kavanagh.
G. Long.	J. Lotyars.	D. Shoeman.
U. Seguin.	W. Sutherland.	

We, the undersigned, nominate Mr. Jack Crankshaw as representative for the Faculty of Law on Students Council for 1920.

C. A. Hibbard.	A. Chevalier.	A. Smith.
A. Shulman.	E. Dale Harris.	M. Versailles.
L. Lorange.	H. Beamish.	L. Lorange.
W. Nicholson.	H. Hayne.	J. Kearney.
J. Patterson.	M. Laflour.	J. Anglin.
F. McGillivray.	K. Wilson.	E. M. Giger.
G. Asster.	C. Marigny.	A. Tregg.
P. Bernard.	H. McLaughlin.	G. Pender.
J. Lotyars.		

Nominations of Mr. J. L. Kearney, M.C., for representative of the Law Faculty on Students Council.

Henry McLaughlin.	M. Hayes.	G. Anglin.
F. B. Haman.	J. Savage.	A. Smith.
G. Marler.	W. Henry.	G. Pender.
J. M. Rincell.	E. H. Cline.	M. Versailles.
K. L. Crowell.	S. Cate.	J. Robertson.
A. Galloway.	J. Nicholson.	H. Seguin.
A. Stuart.	C. Phelan.	W. Mazors.
W. Lighthall.	J. Wolfe.	G. Philbrick.
M. Rubenstein.	C. Marlon.	W. May.

We, the undersigned graduates in Medicine, nominate Ben C. Keeping as representative from the Medical Faculty to the Students Council for the year 1920.

J. B. Palmer.	C. B. Ross.	J. W. Jardina.
A. M. McGillivray.	O. R. Lapp.	U. H. Carter.
C. D. McBride.	W. R. Somerville.	F. Ackman.
W. I. Dorrance.	A. L. Wilkin.	B. Waller.
J. K. Mulvey.	C. Salsons.	E. Watson.
E. F. Henderson.	C. O. Appa.	H. Hart.
T. S. Tretry.	R. W. Murphy.	W. Gerriver.
D. E. Ross.	A. Waxman.	D. Learoyd.
C. E. Manning.	E. A. Centre.	J. C. Armour.
P. Heinbocker.	M. H. Dawson.	O. Beamish.
G. J. Cassidy.	S. W. Britton.	P. McIntyre.

We, the undersigned, hereby nominate Mr. D. R. Learoyd as Medical representative on the Students Council for term 1920-1921.

R. Kinsman.	W. Porto.	F. P. McNamara.
A. Young.	O. P. Henry.	C. R. Evans.
W. Ross.	A. Ridder.	D. McGregor.
C. R. Hall.	Charlie Stewart.	C. Watson.
K. Hutchison.	G. McIntosh.	E. Curtis.
E. Hawker.	G. R. Brow.	E. Shaughnessy.
L. G. Montgomery.	W. Hanev.	W. Bolt.
B. O. Goodrich.	S. Kenning.	J. B. Valentine.
E. Day.		

### JUNIORS!

Will the men who have not yet had their pictures taken for the Annual please do so as soon as possible. Comparatively few out of the 400 Juniors have turned up at Notman's so far; 3 weeks only remaining. The photographer has an increasing amount of work as Christmas approaches, and will not be able to handle our work if left until a week or so before the holidays. Any delay will also produce unnecessary work for the Annual Board. Will all those concerned please attend to this immediately.

### THE ANNUAL BOARD, JOFFRE'S HOUSE.

Marshal Joffre, it appears, is so popular in his own little town of Rivesaltes that many houses claim the honor of having been the one in which he was born. The real house, however, is in the rue des Orangers, and is described as an old house with gray frontage of not very massive or attractive appearance. There is nothing at all to re-

### R.V.C. NOTES

The Annual Board hopes that those members of the R.V.C. who can draw will do a large proportion of the drawings wanted for this year's Annual. A list of the required designs and directions has been posted in the R.V.C. for the convenience of those wishing to submit designs.

There will be a meeting of the Executive of the Societe Francaise at 1:30 p.m. Tuesday, in the Faculty Room, R.V.C.

There will be a meeting of the Swimming Committee and Refreshment Representatives at 1:30 on Tuesday, in the Latin Room. comment the street except its name. Many visitors will be visiting Rivesaltes, and they will naturally ask to be shown Marshal Joffre's house. warned is forewarned, otherwise they may be made to pay their respects at the wrong address.

### ANGLO-SAXON UNITY.

The Rev. Dr. Henry A. Evans, pastor of the Great George Street Congregational Church, of Liverpool, England, addressed a Spokane audience on the unity of interests between England and America, and the possibilities of unity of thought and action in those two countries in solving the world problems of to-day.

"England and America," said the speaker, "ought not to be rivals, but should co-operate with each other, for many reasons, two of which I may give you: America is a land of wealth and of mighty resources of almost every kind, while England has advantages, created by many years of history, which might be seen in the strategic places in her colonies all over the world.

"But we cannot altogether depend upon these circumstances. England and America are each unique, and together will have to solve the same problems of the world, for, while in America you have all the races of the world 'away from home,' England in her colonies has all the races of the world 'at home.' America stands for progress, but America must go on, progressing, building on principles which are eternal because they have to do with the elevation of the human race. England stands for conservation and the past, but no nation can hang on, and that expects to stand on conservation alone; she must look ahead with a desire to be of service to the whole world.

"There are five things that England needs to learn from America: Religious freedom, social democratization, prohibition, blotting out of the slum districts, and the love of country. The American loves his country far more than the average Englishman loves his. Then there are some things which America might learn from England, and I will name them as follows: The art of completion, the principles of the past which have endured, something of the cost of liberty, and the simple beauty of home life. You have great liberty here, but I wonder if you all appreciate what it is worth and what it has cost. We have liberties in England, but they have cost us dearly. The two nations can teach the world the mighty principles upon which the world must be rebuilt, principles for which each has always stood.

"We all have faults, but whatever the faults of the English-speaking people, they have a genius for liberty-loving institutions, and there is no need to go to Russia to take lessons in liberty. The world has become one great family. No nation can longer live unto itself. There are many centres of unity offered the world to-day, but the only real centre is Christianity, and a free Christianity is in the peculiar custody of the English-speaking people."

### Boston-Lecturer Talks Of Christian Science

Announcement on Christian Science was given here Sunday by the Rev. Andrew J. Graham, C.S. of Boston. He said in part:

"In 1846 Mary Baker Eddy, whom medical skill had failed to relieve of a serious physical trouble, was instantaneously healed through reading the Scriptures. Christian Scientists know that with her healing began the modern fulfillment of Jesus' promise: 'When the Spirit of truth is come, he will guide you into all truth.' Instead of taking her physical healing and losing herself in the throng of the unthankful, her gratitude to God and compassion for suffering humanity led her to investigate and to meditate.

"It is fitting at this time to say something about the Christian Science textbook, 'Science and Health with Key to the Scriptures,' by Mrs. Eddy. This book is not a commentary on the Bible, but a key to it. Other writers claim to bring out treasures from the Scriptures and to hand them to us; Mrs. Eddy gives us the key, saying, 'Open the book and help yourselves. Any claim to excellency can be sustained and maintained only by results—'by their fruits ye shall know them.' The spiritual vitality and illumination which the student of the Bible receives through earnest study of the Christian Science text book is undeniable proof that the latter is what is claimed for it—a key to the Scriptures. To those who are hungering and thirsting after righteousness and to the sick and sinful who are seeking peace, it is as deep responding unto deep. Simply the reading of it has lifted thousands of sufferers out of despair. The Christian Science textbook, through informing and guiding the truth seeker, disposes thoroughly of a cold storage Bible, by throwing the doors wide open and exposing its treasures to all who desire them.

"What is Christian Science healing? It is the overcoming of disease by the same method which Jesus employed, that is, by understanding and utilizing the infinite power of God who, according to the psalmist, healeth all our infirmities. The results in Christian Science healing differ from those brought about by other methods in that they are moral as well as physical, and are far more complete, satisfactory, and enduring. Jesus never employed nor recommended the use of matter in any form to cure disease.

"Sooner or later mortal man is forced to the conclusion that he has no health, that is, no healing power in himself, and by the same token he knows that no other mortal can heal him, and by the same token he knows that no other mortal can heal him. He finds himself suffering from a handicap, which must be removed by some outside power before he can take any step into freedom. As a team of horses, on a rough road, unable to start the load without help, is able after the start is made to draw even a heavier load, so man, under the heavy burden of sickness and sin, must have help before he can start. It is not required that a sufferer must believe in nor understand Christian Science before something can be done for him. I love Christian Science because it first loved me; because while I was as yet ignorant of God as boundless love, Christian Science stretched out, as it were, a helping hand."

## Macdonald

### GIRLS' EXAMS. START DEC. 10

Everybody Has Now Settled Down To Earnest Study.

"In December, a college girl's fancy lightly (?) turns to thoughts of exams." Oh, those exams! One cannot refrain from quoting the classics when so awe-inspiring a subject is concerned. "Iamque dies infanda adeat," to many of us that is one of the only thoughts suggested. "How am I going to learn all that?" this, too, presents itself.

There is perhaps no truer example of the flight of time than at Macdonald where things happen so rapidly that time is scarcely noticed. Why, but yesterday we came here fully resolved not to neglect our notes, and with these all famous exams so distant they scarce were considered anything but a phantasm. And now—now they have come. They are posted on the bulletin board; but not only there, they are posted on every girl's mind. Who knows more than they that December 10 spells the first day of Christmas exams?

The absolute silence in the women's residence during the past few evenings shows that the girls are buckling down to study as never before this term. We hope that every girl will get as good results in them as she wishes and strives for.

### MAC'S JEWISH GIRLS CONTRIBUTE

For the past few weeks the eyes of the Jewish community in Montreal have been directed towards the Federation of Jewish Philanthropies campaigning for a quarter of a million dollars. Even to Macdonald College this spirit of helping penetrated and accordingly the Jewish students in the Woman's Residence determined that they too must do something. The Federation controls and supports all Jewish charities, and it is without doubt, a very worthy cause. Those students realized the needs of their fellow people and though the number of Jewish students is comparatively very small indeed, yet a collection which was taken up realized within a very short time the sum of \$36. However, what pleased the collectors perhaps most was the readiness with which this money was forthcoming, though in many cases the girls were denying themselves sundae, candy, etc., for a time.

### VISITORS CAUSE AMUSEMENT.

Softly, louder and louder, a titter ran around the room. Why, what is that? The scene was a nature study lecture and the onlookers were the Model Teachers of Section B. Again we ask, what can that be? Suddenly somebody in seen hugging a big yellow cat and now it is all clear. Prompted by some unknown desire, probably desire of knowledge, concerning hugs, the cat had entered the nature study room with the other students. All unobserved this same yellow cat had taken her place under a seat and there she sat listening intently. For a time all went well but then pussy evidently thought she had learned enough. Emerging from her retreat she went calling from one girl to another. And under the circumstances what could be expected but a giggle here, and a giggle there, and here a giggle, there a giggle, everywhere a giggle, giggle. However, now someone else thought pussy had learned enough, so with gentle but firm politeness our wisdom seeking cat was shown the exit.

### A PARTY.

A snow-shoe tramp, snowball fight, sleigh ride and stand in the post office were enjoyed respectively by a party of eight, who sat out on Wednesday afternoon—in pairs (with peaches?) at 4:30 p.m.—at least that was the appointed time, but what about Charlie and Bill waiting at the church—i.e., the post office—for the late George and Minnie? (Girls why will you keep boys (Boys) forever—waiting?) After the above mentioned various strenuous exercises by way of diversions and creating an appetite the party re-united at Mrs. Wright's—per usual—where an elaborate menu had been ordered and prepared. Before indulging the party was vastly amused with a prize fight—a second Jack Dempsey and Jess Willard—though contested with much more vigor and expressive language. This took place in Mrs. Wright's "best parlor," where all exciting incidents occur. The President of the House Committee, expert when such occasions arise owing to his lengthy experience, came to the rescue of the loser and threw both convicts headlong out the door, after which the party took possession to the tune of a Fox trot—George performing in her usual competent way. After indulging in the repast the party reluctantly turned towards the college, though sad to say one shy young lady, to get there in time, was forced to leave much of her menu behind her, though she did make a vain attempt to pocket a poached egg, but without success, even with the help of a derick (Derrick), who was afterwards seen, with a sigh, bolt (Seybold) towards Macdonald.

### OPPORTUNITIES NOT REALIZED

Students Should Think and Act Before It Is Too Late.

Few of us realize that Macdonald is such a wonderful place until it is too late to put our thoughts into action. We have in this institution splendidly equipped buildings for the various branches of our studies. These are emblems of cleanliness, neatness and order. The lawns, with their admirable landscape architecture, are a standard of excellence. The various student activities offer scope for every phase of social, moral and intellectual genius. Furthermore, we are incorporated with a university where we have free access to opportunities unparalleled, in many respects, within the British Empire. Our studies, as outlined in the syllabus, are but one of our various duties. Do we fully realize what our Alma Mater offers, and are we applying ourselves in order to render the best possible service to others resulting in invaluable benefit to ourselves?

Towards the end of the term, the girls who are here for a year begin to say, "I wish I could start the year over again. The first few months I was here all I thought of was dancing three times a week and waiting to be in town the remainder of the time. It is only now that I am beginning to realize what I have missed." Already similar sentiments are being expressed by the girls who are only with us till Christmas. Most of us fail to realize our opportunities while at College until it is too late.

The Agricultural student usually does not see the need of actively connecting himself with the various student activities until he has put in a couple of years in the course. The graduate bewails his shortcomings which occurred while a student. He says, "If I only had my college course to go through again, I would make every moment count. Nothing would be done but for the best. I would think twice before I spent a cent of my parents' cash or my own hard-earned money. I would connect myself with every student organization in order to fit myself for the many duties of life. It is my own fault that I have missed the general ends of a college career."

It is up to every one of us to realize our present position in relation to our university training. Now is the time to think and put our thoughts into action. Nobody else is going to do that for us. We should have all reached the age when we can think for ourselves. Think well, then act wisely. Our opportunities are then unlimited for the making of that type of individual best fitted for the duties of life. This chance is yours. Act before it is too late.

## PROF. GAGNIER NEW STRENGTH OF ORCHESTRA

Practice Was a Great Success  
Under New Leader.

25 MEN PRESENT.

The First Performance To  
Be Held Shortly.

The first practice of the Orchestra under Prof. Gagnier was a marked success. There was an attendance of about twenty-five, which constitutes a record. It is hoped that even more will turn out to future practices. Prof. Gagnier put the men through a gruelling such as they have never before experienced, and when the meeting broke up each member felt that he had learned more about orchestral playing than at all the previous practices put together. The leader showed himself quick to detect faults on the part of individuals, which he promptly corrected in a firm yet amiable manner. Before half an hour had elapsed everybody felt entirely at home and the practice progressed very smoothly, several pieces being played to the evident satisfaction of the conductor.

The question of music was discussed, Prof. Gagnier pointing out that it would be advisable to vary the repertoire by playing a certain amount of music of the lighter variety. It has accordingly been decided to purchase some music of this variety immediately, and it is hoped that some of this will be on hand for next Monday's rehearsal.

The success of the Orchestra is now assured, and the student body will shortly have an opportunity of hearing its first public performance.

## MANDOLIN CLUB HELD PRACTICE

Club Will Play on December  
9th and 15th.

The Mandolin Club last evening held its weekly meeting. It was poorly attended, only about fifteen members of the club being present. This was due to the approaching exams. It is thought, however, that the new pieces were mostly marches, and sounded real "peppy."

In view of two engagements in the near future, it is thought advisable that those members who were not present at last evening's practice drop in to Peate's and secure new books.

The two engagements consist of (1) Dec. 9th, McGill Boy Scouts, smoker; and (2) Dec. 15th, Medical Society, meeting.

The club generally plays a few times each year for the last named society, so it is hoped that a large turn-out will be there this year.

## MED. UNDERGRAD'S REGULAR MEETING

Case Report Discussed At  
Monthly Assembly.

The fourth meeting of the Medical Undergraduate Society was held last night in the Assembly Hall. The principal event of the evening was the discussion of a Case Report presented by Dr. Finley, who was unfortunately unable to be present.

Nevertheless, a prolonged and interesting consideration of the report was undertaken by no less than eight men—Messrs. Gordon, Lozinsky, Henderson, of the Fifth Year, and Messrs. Scriven, Paradis, Farmer, Heinbecher and Conder of the Fourth Year. Opinion seemed to be fairly evenly divided as to the actual diagnosis, some favoring Tuberculosis, and others New Growth, with the possibility of Syphilis accompanying either. At length the discussion came to a close as Mr. Eaton, the Case Reporter, informed the society that the autopsy had shown, sarcoma of the mediastinum, emphysema and pericarditis. In concluding his remarks Mr. Eaton expressed his admiration for the work done by the Fourth Year men. Then the President, Mr. MacDougall, in a few general statements regarding the conduct of future discussions, brought the business to a conclusion. The rest of the evening went by in assuagement of rascie and musical cravings.

## PROPOSED FANCY SKATING CLUB

Question To Be Discussed At  
Meeting On Wednesday.

A great deal of interest has been shown this year in fancy skating, and a decided movement is now under way to establish a University Fancy Skating Club. A meeting to discuss the question will be held next Wednesday, Dec. 3rd, at 5:30 p.m., in the Common Room at R.V.C.

Canada offers to its inhabitants all the attractions of winter sports. The Norwegians, no more favored than we are with suitable climatic conditions, have long been world famous for their skill in skiing, skating and winter sports in general. Canada should take care not to fall behind in this respect. There is no doubt that a great many students of McGill are interested in the question of fancy skating. Here is an opportunity to take advantage of good teachers and gain proficiency in an exercise which will moreover offer a very enjoyable form of recreation. Dr. Eve and Dr. Rutter, who are both very interested in the sport, have promised to do all in their power to further the interests of the club, if it is started. The club would be open to students in all faculties, and to members of the R.V.C. It is hoped that a good representation will attend the meeting on Wednesday.

## REMINDER OF SPORT RULES

Severe Penalties Follow the  
Infringements Of  
Regulations.

With the approach of winter, students are making plans for hockey, basketball, skiing and the other forms of sport for the season.

In this connection, it is well to bear in mind the regulations of the Athletic Association. It is contrary to the regulations for any student to compete in athletic contests with or against any persons outside the University unless he has previously notified the Athletic Association. Students who wish, as individuals, to compete for outside clubs must first obtain permission from the Athletic Association. University clubs, or groups of individuals must not compete against outside clubs without first obtaining this same permission.

No student is allowed to take part in any form of athletic competition unless he has been physically examined at the University this session. It should be remembered that severe penalties will be meted out for infringement of these regulations.

Students will observe that although it is forbidden to play for an outside club without permission, leave to do this can, however, be obtained from the Athletic Association, unless the club competes against McGill.

Failure to apply for the necessary permission, which would easily have been obtained, has led in the past to some unfortunate incidents.

## WOMAN SLEEPING FIFTY-ONE DAYS

An Interesting Case Of Encephalitis Lethargica.

Mrs. Dora Mintz, twenty-nine years old, of No. 740 Trinity Avenue, the Bronx, who has been asleep for fifty-one days, the longest sleep on record, according to Dr. Robert J. Wilson, superintendent of the Willard Parker Hospital, Sixteenth Street and Avenue C, shows no signs of losing any great weight, although she receives only liquid nourishment. She has a half pint of milk and a few ginger snaps when she awakens.

Dr. E. Gidding, the attending physician, said that the woman has no pain. He said that her periods of wakefulness are increasing. She now awakens about three times a day. Yesterday her husband, Samuel Mintz, was again at the hospital. She can answer only a few questions and then goes to sleep.

Dr. Gidding based his hope of the woman's recovery on the fact that she remains awake sometimes as long as ten minutes. When she first arrived at the hospital, she would waken only for a few minutes and then was able only to mutter something. Now she talks a few words, he said.

Music has been known to have awakened similar lethargic cases, but in this case it has failed absolutely. Dr. Gidding said that a similar case, a woman who had been asleep for six weeks in New York Hospital last year, was finally roused from her lethargic state by a violinist, who played to her for several hours each day.

The medical term for the woman's coma is encephalitis lethargica. It is an after effect of influenza, he said, and is not the "sleeping sickness" of Africa, which is caused by the bite of the tsetse fly which thrives in tropical climates.

### YALE AT TORONTO.

Toronto hockey fans will get an opportunity to see the Yale senior team in action there this month. Mayor Church received a communication from the Yale authorities asking for a game and turned it over to Charles Querre, manager of Arena Gardens. Querre immediately got busy and secured Argonauts' consent to meet the American University team. The game will likely be played on December 20th.

Yale, for several years, have made good in their engagements across the border against Canadian teams. The latter claim, and rightly, too, that the large ice surfaces used by American teams are not conducive to good hockey, and will welcome the opportunity to see how an American sextet will perform in Toronto. Yale plan an extensive Canadian tour, and the Toronto game will probably be the opening one of the series.

Argonauts will start practice immediately. Already many candidates have signified their intentions of trying out. It is just possible that when the O.H.A. certificates are signed several players claimed by other clubs will be found with the Double Blue.

### LAW MAN SHOT AT OTTAWA.

F. Curzon Dobell, of Law '22, was shot in the leg by a burglar who was surprised early Saturday night. Dobell was visiting Mr. and Mrs. Burdett, of Ottawa, and, coming in late, heard a noise in the library. On opening the door he was shot at by the intruder and hit in the leg. The wound is not serious. Unfortunately, the robber escaped.

## GOOD MEETING FOR CANADIAN CLUB OPENING

Program Of High Order Has  
Been Arranged.

R. V. C. INVITED.

"Railways Of Canada" Subject  
To Be Discussed.

The first meeting of the reorganized Canadian Club will be held this afternoon at five o'clock, in the large lecture room of the Macdonald Chemistry and Mining Building. A cordial invitation is extended to all the ladies by the executive and members of the Canadian Club.

The speaker, W. F. Tye, Esq., one of the most eminent authorities on railway matters, will give a discourse of fifty minutes. Mr. Tye is at present vice-president and general manager of the Mexican Northern Power Co. He was appointed consulting engineer in connection with the general railway terminal scheme in Ottawa.

## TREAT FOR MED. SOPHS. TO-NIGHT

Traditional Freshmen-Soph.  
Dinner At Windsor  
Hotel.

The Rose Room of the Windsor Hotel to-night will be the scene of the McGill Freshmen-Sophomore dinner.

The two Freshmen years ('24 and '25) have been working in conjunction to assure the success of the dinner, and the Sophomores need hold out no doubt of spending an extremely enjoyable evening. They will, moreover, feel much more at home as guests, than they felt as hosts last year.

The executives and members of both '24 and '25 wish to express their regrets to '22 (who kindly assisted the Sophomores in the "rush"), that they are unable to have them present owing to the large numbers of both the Freshmen and Sophomore years.

The dinner will be served at 7:15, and all who expect to be present are urged to be there at that hour.

## CUTS FOR ANNUAL STILL REQUIRED

Work Must Be In By the  
New Year.

The "Annual" Board wishes to call attention to the notices which have been posted in prominent places in the various buildings and on the campus notice boards.

These posters contain a list of the drawings and designs required for this year's "Annual." It will be noticed that comparatively few have been sent in and accepted.

Students should choose the drawing or drawings they wish to offer and begin work on them as soon as possible. All productions must be in before the New Year.

In this connection, it should be mentioned that the Board expects the assistance of the fair R.V.C. artists in filling out the long list of drawings required.

### PRACTICE AT 6 P.M.

The following are requested to turn up for basketball practice to-night at 6 p.m.: Hay, Montgomery, Young, L. Kern, Seath, Ferguson, Laisley, Perault, R. Foss, D. Foss, Little, Dugan, M. Levitt, M. Kern, C. Forbes, M. Bourke, McPhail, Corriveau, Clarke, Mendelsohn, James and Chalm, and any other unknown player who may be of service to the Senior team.

### LONDON SEA GULLS.

The sea gulls, which dip and wheel around the bridges of the Thames each winter in whirling white flocks, as thick at times as snowflakes, are now as much an accepted part of London's bird-life as "everybody's pigeons" and "nobody's sparrows." Yet, compared with the pigeons and the sparrows—which have been, as the saying is, "from time immemorial"—they are a comparatively modern innovation, for it is said to have been as recently as the severe winter of 1895 that the gulls first came up the river in search of food and "discovered" London. They found it so much to their liking that they have made their appearance every winter since, be it severe or mild. Doubtless the glowing story of London's hospitality, related by the hardy pioneer gulls of 1895—a story telling of sprats and all sorts of dainties actually given away, thrust, to speak, into your very beak, by the "humans"—has been handed down from parent to child, and is the talk of the cliffs by the summer sea. So, when the days begin to "draw in," the children take wing for this delectable London, where a gull may live the life of ease and plenty.

## Na-Dru-Co Tooth Paste

is the Tooth Paste you can depend on, to clean, whiten and keep the teeth free from discolor and decay.

Contains the refreshing, antiseptic principles of Thyme, Eucalyptus, Gaultheria and Mint, with pure Castile Soap and the Precipitated Chalk base.

In 25c. tubes—at all druggists.

National Drug and Chemical Co.  
of Canada Limited, Montreal.

## NOTICES

### POLO.

There will be a practice for Water Polo players to-night at 5:15 p.m. (five fifteen). All players are requested to turn out.

To-morrow night McGill will play the M.A.A.A. team in the M.A.A.A. Club House on Peel street. The game will commence at 8:30 p.m.

### THE LIT.

The annual debate between the Delta Sigma Society and the Lit. is to be held in the Union on Friday evening, Dec. 5th. The subject of the debate is: "Resolved that it would be to the advantage of the Canadian People if the Farmers Party should gain control of the Dominion Government."

### CANADIAN CLUB.

The first meeting of the Canadian Club will be held this afternoon at 5:00 p.m. in the Chemistry Building. W. F. Tye, a railway authority of Canada will deliver an address on "The Railways of Canada." All undergraduates of McGill and the R.V.C. are invited to attend.

### RETURNED MEDS.

Returned Meds. will meet in the New Med. this afternoon at five-thirty p.m.

### FANCY SKATING.

A meeting will be held on Wednesday, Dec. 3rd, in the Common Room at R.V.C., to discuss the formation of a Fancy Skating Club. All students interested are invited to be present.

### LOST.

On Saturday morning, in Library or on Campus, about six sheets Mathematics' Notes, folded inside a McGill "Daily." Finder will greatly oblige by leaving at desk in Redpath Library.

### BAND PRACTICE POSTPONED.

The band practice which was to take place Wednesday night, Dec. 3rd, has been postponed for a week on account due to delay in invoice of music.

### WRESTLING PRACTICE.

A wrestling practice will be held in the Union at 5:15 p.m. sharp. Men are asked to come early and to bring their own towels.

### LOST.

Black leather note book in the Arts Building containing notes that are important. Finder please return to A. G. Tyler, Comm. '22.

### LOST.

A D. U. Fraternity pin at Junior Dance. Finder please return to J. B. Rutherford, or Sec. Union.

### NEWS BOARD.

The meeting of the News Board, which was scheduled to take place at 5:00 p.m. to-day, will be held at 2:00 p.m. instead, owing to the meeting of the Canadian Club at the former hour. All members are requested to be present.

### GREAT ATHLETE HAS PASSED AWAY.

Horace Barre, guard at the Bordeaux jail and holder of ten world championships for heavy weight lifting, died at two-thirty this afternoon. This morning he attended a funeral and after returning to the court house complained of feeling ill and went home, death following in a short time. Mr. Barre travelled for many years with Barnum and Bailey and other circuses, retiring ten years ago, since that time he has been a guard at the Court House. He was 48 years of age.

The giant jail guard and retired heavy weight lifting champion was an international figure with a world reputation for his chosen physical attainments. He travelled all over Canada and the United States in the days when straight lifting won him his title. Barre never knew his strength and Mr. Eugene Tremblay, champion wrestler, is responsible for the statement that the giant Frenchman never exerted himself to the limit in any of his contests.

He first started out in Montreal where, as an amateur, he won lift after lift, sometimes in barns and again on the platform of small halls in St. Henry and Point St. Charles. He attracted the attention of promoters and was induced to join Barnum and Bailey's circus as a star attraction. Later he joined the Ringling Brothers and for four years was the main attraction in the big side show.

Barre retired about thirteen years ago, undefeated champion with ten world's records to his credit, six of which he held at the time of his death. After leaving the circus the "strong man" took on flesh and two years ago weighed 375 pounds. He was sick for two months and when he again

weighed himself he had lost 100 pounds during his illness.

In Bad Health for Year.

For the past year he has not been in the best of health, heart trouble causing him to worry over his condition. This morning he attended the funeral of Maxine Dansereau, a jail guard who died Friday, and when the big champion returned to his duties at the court house he complained of not feeling well. Sergeant Hannan and Larry Curran, guard, had to assist him with his overcoat and he was told to go home. His condition became worse and at 2:30 this afternoon he died at the home of his sister on St. Denis street.

Mr. Barre was one of the most modest of men and never alluded to his records. An instance of his great strength is remembered by his friends, who declare that the case in point placed him on a pinnacle far above the heads of the present day heavy weight
